Welcome to WB – Website Design. First do you have a domain name? If not I can acquire it and manage it for you. Second you will need a web host, a place to load and manage your website. I can arrange this for you based on the amount of email addresses you will require and the amount of data to be hosted. Third, once your site is up the only other fee's you will have is the annual renewal of your hosting and the domain name. Finally, maintenance fees are listed separately, these charges are for changes that are requested directly by the website owner.

✓ **Please note:** All prices are subject to change based on customization and/or additional requests.

The above prices include:

Keyword creation for each page and a one - time Search Engine Reporting. (See below)

Loading of your site to your host. (Once this is done you or your customers will be able to get to your site by typing in your web / domain name address (www.your-name.com).

After your website has been created, to be found by the Search Engines you will need to report your site to the different Search Engine Robots (such as Google, Yahoo, etc). The Search Engines will look at your page and your Keywords and record that information. Once this is done your customers will be able to find you online.

This is a very important step to a web sites success. A one - time home page reporting fee is included in the price of your basic web site.

How does it work?

Whenever you want something changed or added to your website, simply call or e-mail me and I will do it for you! All you need to do is decide what you want changed or added...email me the details...and I'll do the rest. For small website changes, clients simply send me an email with a description of the changes. No change is too small! If the changes are minor, I can usually have the updates completed within a week after receiving the email.

Optional Services:	Maintenance Fees:
Reporting website pages to major search engines (completed monthly)	\$200.00 per year
Changing / updating pictures and or graphics in current layout	\$35.00/HR – [1 hour minimum]
Adding additional pictures and or graphics to update layout	\$35.00/HR – [1 hour minimum]
Changing / updating text in current layout	\$35.00/HR – [Unless it is less ½ hour then charge is \$17.50]
Adding new text with an update to the overall page design	\$35.00/HR – [1 hour minimum]
Adding an additional page to website	\$100.00
Complete Website re-design	custom

Payment Schedule - How does it work?

First consultation is free.

After learning about your business and your particular website requirements, I will put together a detailed estimate. Once the estimate is accepted, a deposit of one-half of the total design fee is required. A homepage draft will be constructed for your review.

Note: I may design more than one draft if your requirements. On approval of homepage draft, I will complete the development of your site. Balance of website fees will be due on completion.
